PREWASH

Application of a prewash agent for easier removal of dirt, grease and insects glued onto the body and rims of a vehicle

Choose between the options

SNOW FOAM

A softened cold water with an active foam achieves a unique visual result and enriches the users experience at the car wash

PRESSURE WASH

A combination of pressurized cold water and liquid detergent

BRUSH WASH

A combination of warm water, shampoo and fine bristle brush is an irreplaceable ally against dirt that is hard to remove

WAX

Spray-on wax for enhancing shine and preventing water spots

SPOT FREE RINSING

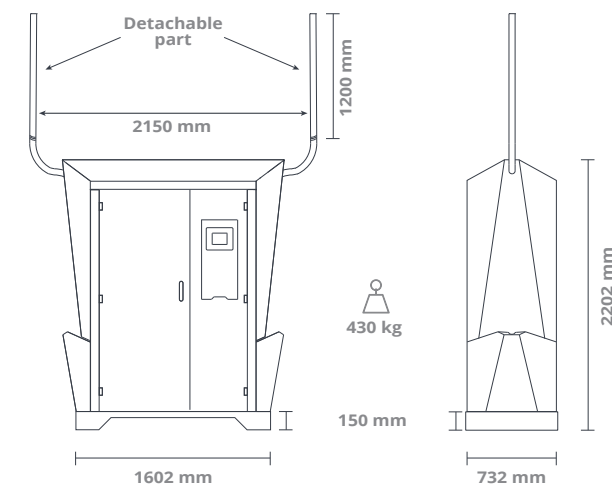

Depending on the hardness of the water, final rinsing is available as rinsing with OSMOTIC purified, mineral-free water
